

PRODUCT DESCRIPTION

RIVERINA SHEEP NUTS are in a unique cube form suitable for feeding to sheep and cattle as a supplementary feed in times of poor pasture quality or in drought situations (supplemented with hay). RIVERINA SHEEP NUTS are produced as a large pellet ideal for feeding on the ground in clumps or trailed out.

COMPOSITION

Barley, sorghum, bran and pollard, urea, cottonseed meal, canola meal, soybean meal, salt, molasses, vegetable oil, limestone, sodium bentonite, dicalcium phosphate, salt, Riverina Vitamin and Mineral Ruminant pak.

DIRECTIONS FOR USE

- Designed to be fed in conjunction with hay and/or pasture.
- Listed below are some feeding rates for RIVERINA SHEEP NUTS.
- NOTE: These feeding rates should only be used as a guide. The level of feeding will be determined by pasture quality and animal condition.

Animal Type	Approximate Feeding Rate
Young lambs and wethers up to 40kg	Up to 100 grams per day as a supplement to pasture or hay
Lambs and wethers Over 40kg	Up to 200 grams per day as a supplement to pasture or hay
Ewes with young lambs	Up to 500 grams per day as a supplement to pasture or hay.
Rams (depending on bodyweight)	Up to 800 grams per day as a supplement to pasture or hay.

- NOTE: The above feeding rates are for supplementation only. Higher feeding rates are required for maximum animal performance.
- NOTE: When introducing stock to RIVERINA SHEEP NUTS it is recommended that feed intakes be increased gradually over a two (2) to three (3) week period to minimise the risk of acidosis (grain poisoning).
